

K9TeK-K9 Zapper

K9-Non Lethal Weapon

Overview

The use of K9 in riot control, Physical protection and other emergency situations has proven to be very effective.

However sometimes the outcome is more severe and complicated than expected , dogs do bite and issues such as injuries, "use of excess force" and liabilities occur from time to time.

In some cases like prisons, inmates may have had prior encounters with dogs (or even been bitten), so the associated fear factor is diminished and inmates are sometimes less affected by the attacking dog.

The solution

K9Zapper

- No bites; reduced injuries and liability
- Repeated electric shocks for 40 sec or single zap manually by handler via RF RC
- Deterrent; can "spark" at handlers control
- Safe ; shock level limited to non lethal
- Multipurpose harness for additional devices

- Innovation
- Non Lethal, no bite injuries
- Deterrent
- Remotely Controlled
- Easy to train handlers and dogs
- Affordable

K9TeK- K9 Zapper

Specifications

Zapper Unit

Output Voltage (at prongs)	60,000 volt
Pulse Cycle (Sec)	Continuous
Energy Delivered per Pulse	>7 joules for 1 sec
Total Delivered Power	7 watt
Power Source	5 V rechargeable batteries
Size	85mm X 55mm X 20mm
Weight	350 gm
Operating Temperature Range	-20C to +50C
Relative humidity	95%
Water Resistance	IP66
Warranty	1 Year

Remote Control

Range	
Outdoor	1000Ft
Indoor	200 Ft
Transmitting power	+13 dBm
Frequency	902-927 MHz
Encrypted Communication	Yes
Secure Communication (Error Detection)	Yes
Two way full Duplex	Yes
Sleep Mode (energy saver)	Yes –Software controlled
Radio Standards	EN300-220V2.3.1 EN301-489-3V1.4.1 FCC (2001-08)
Power Source	5V rechargeable Batteries
Size	40mm X 40mm X 10mm
Weight	120 gm (configuration dependent)
Operating Temperature Range	-20C to +50C
Relative humidity	95%
Water Resistance	IP66
Warranty	1 Year
